Multi-disciplinary or Interprofessional- Is It Just Semantics?

Case Example

In practice, how do you think about these questions...

- What went well?
- What was challenging?
- What would you do differently?
- What new knowledge or skills do you need to develop?

Telephone

Debrief

Approach:

Multidisciplinary
IP

What does this mean for me and how I work?

- Impact on daily operations
- What lens do you use
- Varies by setting

How to:

Evaluate ROI
Demonstrate the ROI of IPP
Define "Resources"
Think Creatively

Use Your Resources
Effectively
Efficiency
Economic

Multi-disciplinary or Interprofessional- Is It Just Semantics?

Brainstorm: Productivity

In your work environment, the administration insists that all professions combine their evaluations and treatments separate from other professions. They believe that documentation is sufficient in "sharing" information about the patient and the patient's needs.

Given this situation, discuss in your small group ideas on how to bring IPE and IPP to your workplace. Consider the following:
- Input
- Resources
- Team members

SPOTLIGHT

And you're done. And you're done. And you're done.

Special thanks to Dr. Katherine Giron-Robins and William Giron, MPH, Department of Interprofessional Healthcare Studies, at the University of California, San Francisco. Their contributions and expertise in IPE Education for their on-going excellence, expertise, and generous support for this event.

Thank you, William Giron, for your insights and contributions, and all the hard work and dedication you have shown to IPE and IPP.

Thank you!
