Prepare for a Career in Speech-Language Pathology

The master's program in communication sciences and disorders (CSD) at Elmhurst University prepares students for rewarding careers as speech-language pathologists in professional settings such as schools, hospitals, clinics, research institutions, private practice and more.

**PROGRAM BENEFITS:**
- Cohort approach, fostering collaboration and strong bonds
- Gain a variety of clinical experiences in our on-campus Speech-Language-Hearing Clinic
- Get hands-on practice in the state-of-the-art Elmhurst University Simulation Center at Elmhurst Hospital
- Small class size with access to professors and clinical educators
- Abundant off-campus clinical placement opportunities
- Multicultural & multilingual emphasis
- Study abroad opportunities
